AI FIRST NATIONS · DRONE KNOWLEDGE ON COUNTRY

NGARRAKAN NGARDIJI

LEVEL 7 · CAREERS IN THE SKY · KIKI EARNS HER WINGS

1 · Teacher guide and pathway
2 · Story to read aloud
3 · Rules
4 · Colour & Create
5 · Match-up
6 · Quiz
7 · Quiz answers
8 · Certificate

Created by John Fejo (Pop Pop), Founder & Chief Remote Pilot, AI First Nations · CASA ReOC CASA.ReOC.8979 · Darwin, Larrakia Country. Goes with Drone Class 501.

LEVEL 7 TEACHER GUIDE

Level 7: Careers in the Sky. Kiki is old enough now and earns her CASA operator accreditation. Ngarrakan calls Kangaroo, Goondoi, Echidna, Dingo and Goanna together to welcome a new pilot for Country. This level teaches CASA accreditation, licences, ReOCs and job safety.

Time	What happens	Page
5 min	Acknowledgement of Country. Invite an Elder or ranger to share the local names for the animals in today's story.	—
10 min	Read the story aloud, or play it on a screen. Stop at each scene and yarn about it.	2
10 min	Rules. Read them together and link each rule to the story.	3
15 min	Colour & Create, and the match-up.	4, 5
10 min	Quiz, marked together.	6, 7
10 min	Certificate. If flying is planned, run the pre-flight checklist with the instructor.	8

THE PATHWAY: SAME SIX STEPS, YEAR 3 TO YEAR 12

Every level: **1 Story · 2 Rules · 3 Colour & Create · 4 Match-up · 5 Quiz · 6 Certificate.**

Lvl	Years	Level and story	CASA focus
1	Year 3	**First Flight** The Pilot and the Spotter	Keep the drone in sight · no higher than 120 m · 30 m from people · daylight only · never over people.
2	Year 4	**Safe Flight** Storm Coming	Weather and wind limits · battery reserve · Return to Home · lost signal · keep clear of emergencies.
3	Year 5	**Eyes in the Sky** Crocodile Says Keep Back	Keep distance from wildlife · privacy · no filming people without asking · camera settings with a purpose.
4	Year 6	**Mapping Country** Goondoi's Map	Planned missions · overlap · battery planning · instructor holds the controls for automated flights.
5	Year 7 to 8	**Sharing the Sky** Fire on the Hill	Airports and 5.5 km · CASA-verified drone safety apps · NOTAMs · registration · give way to crewed aircraft.
6	Year 9 to 10	**AI on Country** Dugong and the Counting Machine	Data from commercial flights under a ReOC · storing data safely · human checks on AI results.
7	Year 11 to 12	**Careers in the Sky** Kiki Earns Her Wings	Operator accreditation (16+) · RePL · ReOC · registration · job safety analysis · client briefs.

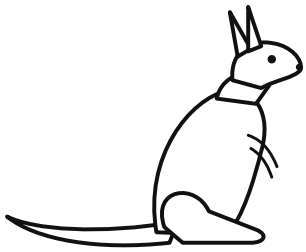

Flights in AI First Nations classes run under ReOC CASA.ReOC.8979 with the instructor in charge. Students under 16 always fly under supervision. Culture: Ranger and drone careers that keep Country strong. Ngarrakan Ngardiji: see far, fly safe, care for Country.

PAGE 2 · STORY

KIKI EARNS HER WINGS

Read this aloud to the class. On a screen, the same story plays as an animation.

1. Kiki is old enough now. She studies hard and passes CASA's operator accreditation test, with her ARN ready. Pop Pop is very proud.
2. Ngarrakan calls the animals together. Kangaroo, Goondoi, Echidna, Dingo and Goanna come to welcome a new pilot for Country.
3. Kiki's first job is a ranger survey. Before anything else, she writes a job safety analysis: every hazard, and how she will control it.
4. She checks the drone is registered, reads the client's brief, and gets permission from the Traditional Owners.
5. Kiki flies the survey with KK as her Spotter. Every animal gets space, and every flight goes in the flight log.
6. Ngarrakan Ngardiji: see far, fly safe, care for Country. Kiki and KK are ready for careers that keep Country strong.

Yarn about it: What steps did Kiki take to become a drone pilot for Country? Which drone or ranger job would you like? Who in your community could help you get there?

CAREERS IN THE SKY

1 Get your ARN
Your Aviation Reference Number is your CASA ID. You need it for everything else.

2 Operator accreditation at 16
Pass CASA's free online course and test to fly drones of 2 kg or less for work.

3 Remote Pilot Licence (RePL)
Train with an approved provider to fly bigger drones or more complex jobs.

4 Work under a ReOC
Jobs outside the standard rules are run by a business with a Remote Operator Certificate, like AI First Nations.

5 Register every work drone
Every drone used for work must be registered with CASA.

6 Do a job safety analysis
Before every job, write down the hazards and how you will control them.

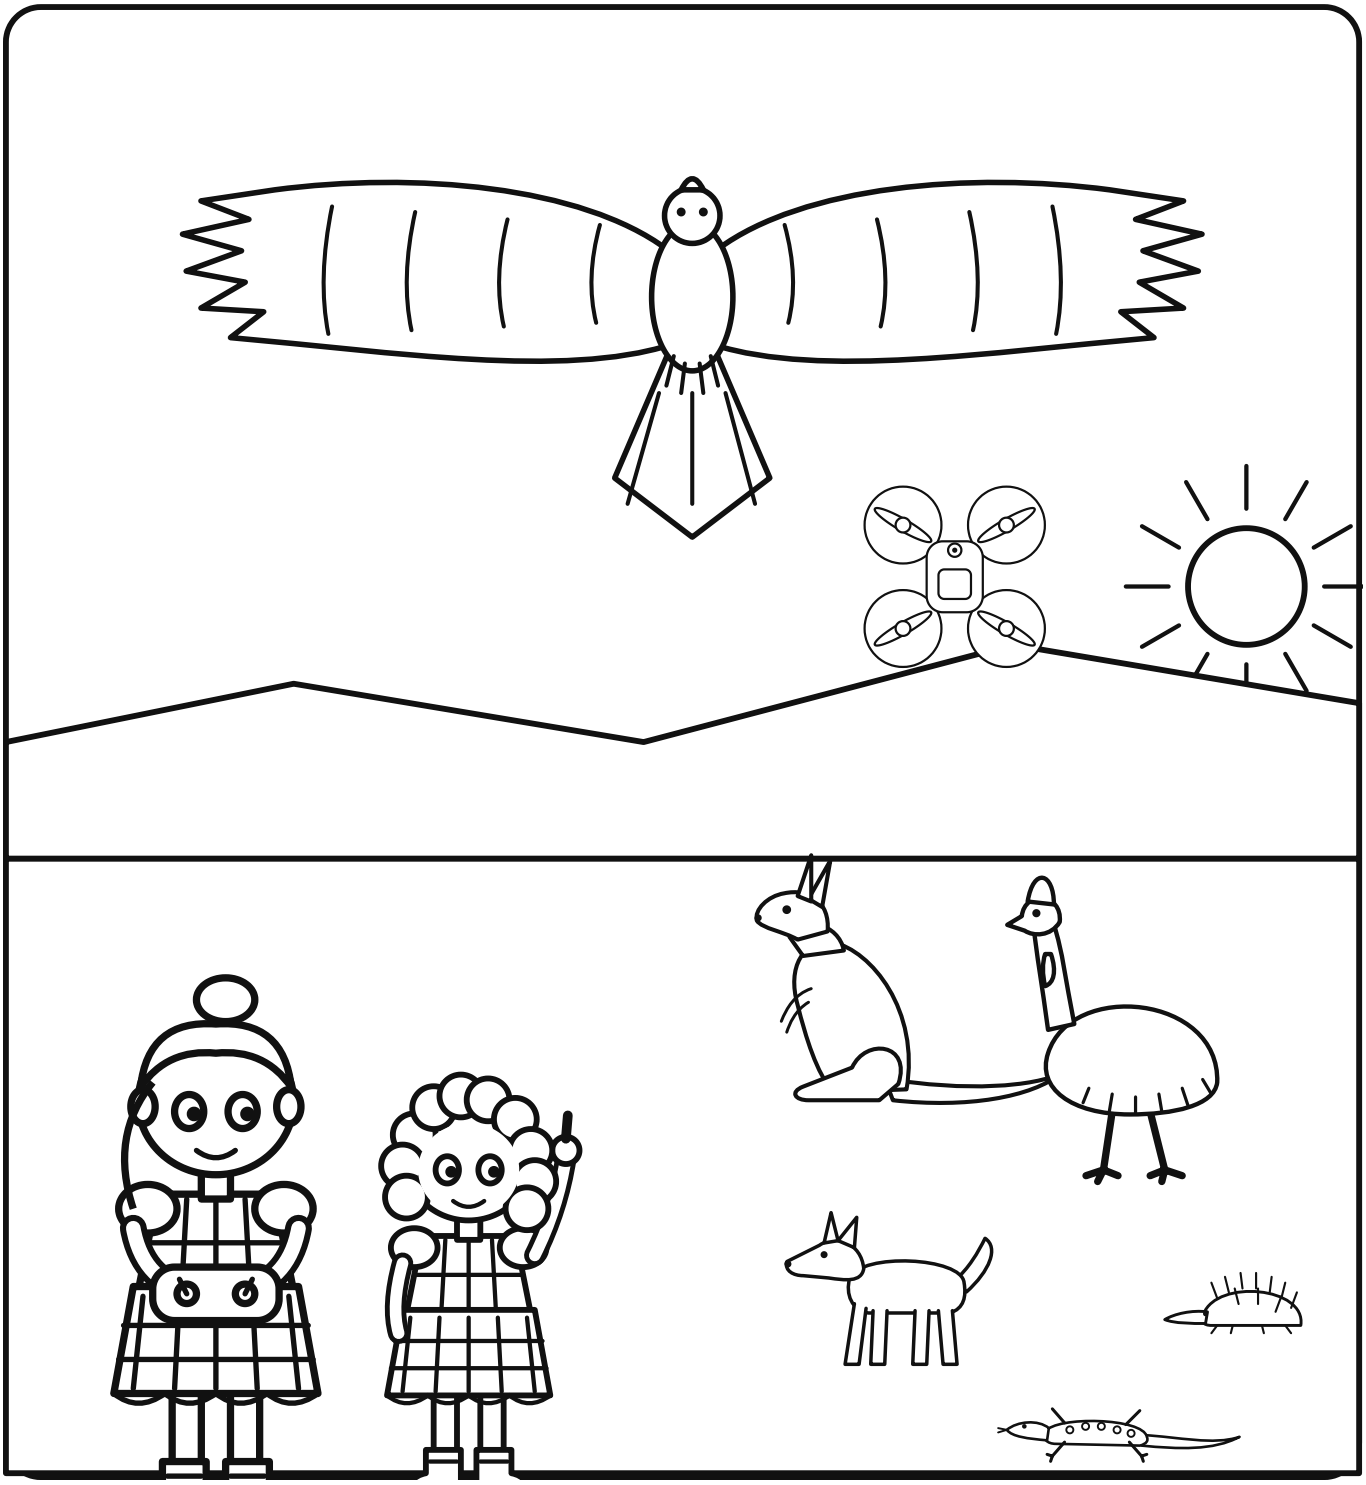

7 Read the brief and get permission
Know what the client needs, and get permission from landholders and Traditional Owners.

8 Log every flight
Keep a flight log: date, place, drone, pilot, time and anything that went wrong.

Rules can change. Check casa.gov.au and a CASA-verified drone safety app before every flight. AI First Nations flights run under ReOC CASA.ReOC.8979.

PILOT FOR COUNTRY

Name: _____ Year: _____

Colour the picture with the colours of your Country. **Create:** add one more animal or plant from your Country, and write its name in your language if you know it.

PAGE 5 · MATCH-UP

CAREERS IN THE SKY

Name: _____ Year: _____

Draw a line from each item on the left to its match on the right.

WORD	WHAT IT MEANS
ARN •	• Remote Pilot Licence from an approved trainer
Operator accreditation •	• CASA online test, 16+, fly drones of 2 kg or less for work
RePL •	• Your CASA ID number
ReOC •	• A record of every flight
JSA •	• Job safety analysis: hazards and controls
Flight log •	• Certificate for a business to run drone operations

Create: write or draw how today's rules help care for Country.

LEVEL 7 QUIZ

Name: _____ Year: _____

Tick one box for each question.

1. From what age can you get CASA operator accreditation?

☐ 16 ☐ 21 ☐ 12

2. What is an ARN?

☐ Your CASA ID number ☐ A drone brand ☐ A type of battery

3. Operator accreditation lets you fly drones of what weight for work?

☐ 25 kg or more ☐ 2 kg or less ☐ Any weight

4. What does RePL stand for?

☐ Real Easy Pilot Lesson ☐ Registered Engine Power Limit
☐ Remote Pilot Licence

5. What does a ReOC allow?

☐ A business to run drone operations outside the standard rules ☐ Free drones
☐ Flying at night anywhere

6. What must every drone used for work have?

☐ Four propellers ☐ CASA registration ☐ A name

7. What is a JSA?

☐ A drone app ☐ A flight log ☐ A job safety analysis

8. Before a job on Country, who do you need permission from?

☐ Landholders and Traditional Owners ☐ Nobody ☐ Only your friends

9. What goes in a flight log?

☐ Nothing ☐ Date, place, drone, pilot, time and problems
☐ Only the weather

10. Which jobs use drones on Country?

☐ None ☐ Only filming movies
☐ Ranger surveys, weed mapping, wildlife counts and more

QUIZ ANSWERS

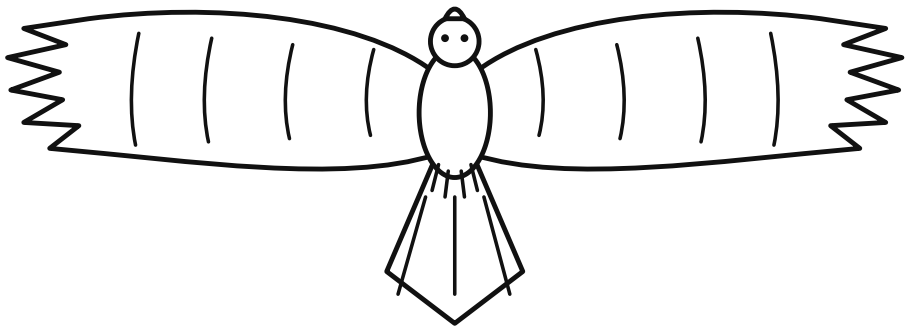

1	16
2	Your CASA ID number
3	2 kg or less
4	Remote Pilot Licence
5	A business to run drone operations outside the standard rules
6	CASA registration
7	A job safety analysis
8	Landholders and Traditional Owners
9	Date, place, drone, pilot, time and problems
10	Ranger surveys, weed mapping, wildlife counts and more

Match-up answers: ARN → Your CASA ID number · Operator accreditation → CASA online test, 16+, fly drones of 2 kg or less for work · RePL → Remote Pilot Licence from an approved trainer · ReOC → Certificate for a business to run drone operations · JSA → Job safety analysis: hazards and controls · Flight log → A record of every flight.

AI FIRST NATIONS · DRONE KNOWLEDGE ON COUNTRY

NGARRAKAN NGARDIJI

LEVEL 7 · CAREERS IN THE SKY

This certifies that

_____

has completed Level 7 of Ngarrakan Ngardiji: CASA accreditation, licences, ReOCs and job safety,
following the Civil Aviation Safety Authority (CASA) drone safety rules.

School or community _____ Date _____

John Fejo, Founder & Chief Remote Pilot
AI First Nations · CASA ReOC
